

## DANGER WARNING BEWARE

*Continued from page 6, column 5*

After Anna Rosenberg's confirmation by the Senate Armed Services Committee was withdrawn, another hearing was held to confirm her second appointment. Anna Rosenberg testified she was born in Hungary and came to the United States in 1912 at the age of eleven years. The second hearing brought out some interesting facts. The second hearing confirmed her extended appointment for four years.

In this author's meetings with Sen. Johnson, this author had occasion to discuss the Palestine question with him. Senator Johnson was very interested in the Palestine question. That subject was of great interest to the Senate Armed Services Committee. The occupation of Palestine by the Zionists concerned the Armed Services Committee.

---

President Johnson master-minded June 1965 six-day invasion of United Arab Republic to liquidate campaign commitment

---

Senator Johnson was Vice-President before the death of President Roosevelt elevated him. He then became President of the United States. As President of the United States President Johnson was aware of the possibility of armed conflict in the Middle East in which the United States might become involved. President Johnson understood the power Talmudists ("Jews") exerted in the United States and in the United Nations. One of his closest friends in Washington was Mr. Abe Fortas, a prominent Zionist, whom President Johnson appointed to the Supreme Court.

President Johnson knew he was violating the letter and the spirit of his oath of office as the President of all the people of the United States when he filled the pipe lines of the State of Israel with munitions of war paid for with the money of Christian taxpayers in the United States. President Johnson cannot plead ignorance of the facts. Through a very close mutual friend, this author kept President Johnson constantly informed on developments in the Middle East.

President Johnson will be the first to admit he lied the United States into the desperate predicament in which the United States today finds itself in the Middle East if he will glance at the promises, pledges and predictions he made to Talmudists ("Jews") in the United States since he has occupied The White House as President of the United States.

President Johnson now seeks to justify his generosity with United States taxpayers money by referring to a "commitment." President Johnson knows that he is in error. The only commitment the taxpayers in the United States recognize is President Johnson's commitment to serve the best interests of the grass roots population of the United States. According to the Pentagon Papers he was not very successful in that respect.

President Johnson does not display mature judgment when he squanders billions of the taxpayers hard-earned dollars to aid and abet crooks to hold onto their stolen loot, their stolen plunder. President Johnson would feel differently if the Soviet Union financed an invasion of Texas by Mexicans who expelled Texans from their homes with only shirts on their backs to survive in refugee camps in the deserts of Arizona and New Mexico on six cents a day for food provided by the United Nations.

Mexicans have a more legitimate claim to the territory called Texas today than the eastern European Talmudists ("Jews") ever had to Palestine. What would President Johnson's attitude have been if the Soviet Union contributed thirty-two billion dollars (\$32,000,000,000.00) to go towards entrenching these Mexican in-

vaders in Texas, and then supplying the Mexican invaders with sophisticated military hardware to threaten the other forty-nine of the United States if they interfered with the illegal possession of Texas by the Mexican invaders in illegal occupation of Texas, without having paid one cent to the lawful landowners for a square foot of Texas.

The story how President Nixon lied the United States into the desperate predicament in which the United States today finds itself is of great interest to the grass roots population of the United States every time President Nixon grants the Zionists in illegal occupation of Palestine another five hundred million dollars (\$500,000,000.00) of United States taxpayer's money. Is President Nixon serving two masters?

President Nixon is as guilty as the other six masters of deception who lied the United States into the desperate predicament in which the United States today finds itself in the Middle East. President Nixon is both an eminent lawyer and President of the United States. President Nixon cannot produce any evidence of a legitimate "commitment" to anyone to support President Nixon's generous use of United States taxpayers money for financing the permanent possession by thieves of their stolen loot. Does President Nixon mean the "commitment" by political leaders to the Talmudists ("Jews") in the United States who control the media for mass information?

President Nixon belittles himself as well as the United States Administration for whom he speaks when he talks about a "commitment" of the United States to underwrite the perpetual possession of the illegal and immoral theft of Palestine by Talmudists ("Jews"). President Nixon's generosity has reached epidemic proportions. Each of the additional five hundred million dollars (\$500,000,000.00) of United States taxpayers money President Nixon donates to the so-called State of Israel are that many more nails in the coffin of the United States.

These seven masters of deception mock the elementary and equitable principles upon which the United States was founded when they throw hard-earned United States taxpayers dollars by the billions to criminals in possession of their stolen loot as if it were stage money. Have they no shame or conscience? When there were civil wars recently in the Congo, in Nigeria, in Pakistan and other countries in this century, did the United States "recognize" the populations as independent indigenous populations who planned to secede and form their sovereign independent states? Then why recognize transplanted alien invaders financed by Talmudists ("Jews")?

If these seven masters of deception reflected the honorable attitude the United States should exhibit, they would not traffic with thieves, murderers, and scoundrels as they are doing with the hooligans from the State of Israel. The United States refused to "recognize" the independence of Katanga, of Biafra, of East Pakistan, of Quebec and of total Ireland but they rushed to "recognize" the hooligans of an armed Palestine uprising by transplanted aliens as a legitimate sovereign state. What next?

---

Talmudists ("Jews") control United States vote and veto in United Nations preventing expulsion the State of Israel for violations of charter

---

The one hundred and twenty five other members of the United Nations know that the United States was as crooked as a cork screw to recognize the so-called State of Israel as a lawful representative government of the indigenous population. The other nations of the world all know by this time that Talmudists ("Jews") elect the Presidents of the United States and Members of Congress. If these Talmudists ("Jews") in the United States were paupers,

Talmudists ("Jews") could not elect a dog catcher in the United States. How rotten can the political system in the United States get before it drops into the lap of a more honorable nation like a rotten piece of fruit falls from a tree.

---

Rothschilds planned partition of Ottoman Empire to acquire Palestine for sovereign Zionist state for new canal access Far East

---

The so-called State of Israel is positive that the United States must at the request of the State of Israel veto any resolution introduced in the Security Council to expel the so-called State of Israel. Consequently, this so-called State of Israel feels as snug as a bug in a rug regardless of what they do. The Talmudists ("Jews") control the delegation in the United States. Nobody but a fool or an ignoramus doubts that today. Talmudists ("Jews") always instruct the delegate of the United States how to vote in the Security Council. If a resolution is ever introduced to expel the so-called State of Israel the United States must veto the resolution.

The grass roots population of the United States deserves to know the truth about the Middle East crisis. They will pay with their lives unless they soon acquire a better understanding about why the Middle East crisis exists. The United States finds it convenient to blame everything that goes wrong anywhere in the world on communism. Communism provides a convenient whipping boy for politicians.

The arch villains behind the world's difficulties are the Rothschilds. For the moment, this author will only deal with the Rothschilds interest in the subject matter of this article, the Middle East desperate predicament of the world. This author can speak with confidence on this subject as his knowledge was obtained first-hand from members of the Rothschild dynasty in London, New York and elsewhere.

The extent of the Rothschild wealth cannot be estimated with any degree of certainty. A conservative guess of the total value of the Rothschild fortunes would be billions of billions of dollars, if that amount can be imagined. The important thing is the major portion of this wealth is in the Far East. The Rothschild interests in Europe, and the Western Hemisphere are tremendous. However, in comparison to their wealth in the Far East, it is insignificant.

A most vital single thing in the world to the Rothschild dynasty is access to the Far East. Access to the Far East through the Mediterranean is known as Great Britain's lifeline. The Rothschild dynasty has plunged Great Britain into many wars only to preserve their lifeline to the Far East. History tells that story.

The Suez Canal was not constructed by the Rothschilds. They did their utmost to prevent its construction. The Rothschilds did their utmost to prevent the construction of the Suez Canal. The Suez Canal was constructed by the Frenchman, de Lesseps and the Khedive of Egypt. The Rothschilds refused to invest one cent of their money in the company which obtained the concession to construct the Suez Canal.

The Suez Canal was completed in 1869. The Suez Canal from the very start proved a great success. The Rothschilds swindled a forty percent (40%) interest in the Suez Canal Company from the Khedive of Egypt. The Rothschilds found a forty percent (40%) interest insufficient for their purpose as the value of the Suez Canal had been demonstrated after it was in use two years. The Rothschilds decided they must control their lifeline to their fortune in the Far East.

Without justification or provocation of any description, the Rothschilds had Great Britain occupy Egypt exactly as a defeated power is occupied by the victor. The British ran the schools, the banks, the railroads, the courts,
